Experience

2023 – Present

Photography Studio Website (Project)

- Designed and developed a responsive website for a fictional photography studio, utilizing HTML, CSS, and JavaScript.
- Implemented AOS animations to enhance user experience and visual storytelling.
- Developed a user-friendly gallery section using modal popups and a masonry layout for dynamic content presentation.
- Integrated a "Back to Top" button for improved user navigation and accessibility.

2023 – Present

Gym Redesign Website (2bfit Project)

- Redesigned a gym website using HTML, CSS, and JavaScript, transforming it from an information-deficient site to a user-centric and engaging platform.
- Developed a visually appealing landing page with a motivational quote slider to inspire potential gym members.
- Enhanced website functionality by incorporating sections for "About Us," services offered, pricing, call-to-action, and a BMI calculator (using JavaScript).
- Increased user engagement by implementing a testimonial slider featuring fictional client feedback and a community blog section.
- Streamlined user experience by creating a clear website structure with dedicated sections for information and calls to action.

2021 - 2023

Freelance Graphic Designer

- Designed logos for various companies, translating client needs into creative and effective brand identities.
- Created 3D SketchUp models for bathroom renovation projects, enabling clients to visualize the final design before construction.
- Developed engaging graphic overlays for Twitch streamers, enhancing their online presence and audience engagement.
